

Creating a Business Plan

Your Business Plan

If you choose to start a business you should prepare a clear plan that takes your idea from concept to reality. A business plan lays out how you are going to run your business and is a management tool to help guide the future of your company. This is a required document for most business financing. Below we have attached some files to help get you started!

You can also sign up for free, confidential business consulting through SBDC here:
