

County Tree & Shrub Sale Program

Lafayette County Land Conservation and Planning & Zoning Department runs an annual tree & shrub sale program offering a variety of Wisconsin native deciduous trees and shrubs with an addition of conifer/evergreens. Order forms are available in the fall and the deadline to place orders is the last week in October. Pick-up date for the orders is mid-to-late April, depending on the late winter weather, and when the nursery is able to lift the trees from the ground.

Lafayette County Land Conservation also has two pull behind planters (Must have a 50+ horsepower tractor with remote hydraulic couplings) and multiple hand planting spuds available for rental.

Please call in advance if you would like to rent any of our equipment.
