

Manure Regulations

Lafayette County has updated the Manure Storage and Management Ordinance, effective February 14th, 2023.

All new or proposed modifications to manure storage and transfer facilities constructed within the boundaries of the county must meet the standards set by the Ordinance and Natural Resources Conservation Service (NRCS) practice standards

The following applications and checklists below should help you start the process for applying for a permit. For further questions contact the Land Conservation Department at (608) 776-3836.
