

Lafayette County Decision Tree for Illness during COVID 19 Pandemic

(based upon WI DHS guidelines)

Yes

Negative

Diagnosis from

physician (such as

Strep Throat,

Norovirus, etc.)

Request note from provider on

differential diagnosis. Follow WI

Communicable Disease

do not need to stay home.

Positive

Public Health will

follow up: Student should

stay home for 10 days since symptoms started AND until no fever for at least 24 hours

AND symptoms are

improving.

Siblings and household

members should stay home

for 14 days from last

contact with symptomatic

person.

Is the student/staff experiencing **one** of the following symptoms: Cough, Shortness of Breath, New Loss of Taste/Smell

any two of these symptoms: Congestion, Runny Nose, Fatigue, Muscle and/or Body Aches, Sore Throat, Fever, Chills, Nausea, Vomiting, Diarrhea, Headache

Isolate and send student home. Family should contact the provider for direction on testing/evaluation. Diagnosis from *If student has blue lips, difficulty physician (such as stayinig alert/awake, pain in chest Strep Throat, or Shortness of Breath, call 911, Norovirus, etc.) Was **COVID** No testing Request note from provider on differential diagnosis. Follow WI done? Communicable Disease Guideline/Chart for exclusion. If symptoms worsen, family should contact provider. Is this individual Siblings and household members do not need to stay home. identified as a close contact to a positive **COVID** case Yes Stay at home for 10 days from onset No of symptoms AND until no fever for 24 hours AND symptoms are improving. Guideline/Chart for exclusion. If symptoms May return worsen, family should contact provider. to school after Siblings and household members stay home for fever-free for Siblings and household members 14 days from last exposure. (If not able to 24 hours properly distance, day 1 could be the last day of isolation for the case.)
